In case of sanitary emergency, organization will postpone the entire event.

If any other restriction will be imposed, the organization will publish via social media pages and any other form, which procedures are taking place.

## 5. DIVISIONS – CATEGORIES

DIVISIONS:

The competition organization believes that the differentiation on the basis of certain skills has no longer reason to exist for the categories RX, Master (35,40,45), Junior, Scaled. The introduction and formalization in the Italian competitions of the Experience category, comparable to the Scaled category of the CF Open, to which skill variations are applied, forces us to take a conscious position in relation to the other two categories: RX and Scaled. These can no longer be distinguished depending on the skills but rather by the fitness level of the individual athletes. From this year therefore the categories will be identified with the following nomenclature:

- a) Elite
- b) Regular
- c) Experience
- d) Team

## SCALING DOWN MOVEMENTS

**PAY ATTENTION:** This does not mean that an athlete missing one skill can't compete. He/She will be able anyways deskill the movement according to the competition standards. Obviously his/her

score will reflect this choice, resulting in a lower score than whom have performed even only one rep of the originally prescribed movement.

E.g. I'm not able to perform bar muscle ups: I will be able to scale the movement with chest to bar, but my score will be lower than whom have performed even only one rep of bar muscle up.
